

THMD Non-Potable Water Blowout Schedule

Your home irrigation is privately owned by you.

Homeowner is responsible for the maintenance.

Homeowner is responsible for your winterization.

Clean your inline filter before blow out starts.

Set your irrigation clock for your schedule time of the blow out.

Set each zone for 3 to 4 minutes, to blow out each zone.

Or do manually during last blow out time. We want as much water out of the system as possible. Be sure to close your main valve (Ball Valve) after blow out.

BLOW OUT DURING YOUR SCHEDULE TIME!
